

*Warm Christmas wishes. May the Joy and Peace of Jesus be yours in a very special way.*

*Sr Augusta wrote to me about a project you had asked for the coming year. We have a very big project of starting a school purely for the education of the poor tribal children from remote villages. These children will have to stay in our boarding house and attend the school. Otherwise from homes they will not go to school regularly. We are just beginning the construction of the boarding. The first two years we will also have the classes in the rooms of the boarding. By the time we hope begin the building of the school. This is a big project and we would be grateful for all the help we can receive.*

*Thanking you and wishing all at home*

*Sr. Rekha*
